

For Sale, Volantex Phoenix 2400 ARF. New in box

You will need servos, motor and all electronics.

As the box is in storage I used the stock photos from the web.

Key Features:

- The 2.4M wingspan provides stable performance and makes you enjoy long glider flights. - A rugged plastic hull provides flexibility and durability to prevent aircraft damage.
- The model has been equipped with a wheel to facilitate landing.
- Engine size 4023 / 1050KV
- Model 6 CH version

Description:

The new Phoenix 2400 glider from the renowned Volantex RC company. The hull is made of plastic thanks to which it is extremely resistant to falls and impacts. The robust design makes the model behave well during the flight. The model is easy to assemble and does not require a lot of time to assemble.

If your interested make an offer. Must go.
